

Scheda Tecnica Lampada portatile SPARK SMD LED

PRODUCT'S DESCRIPTION

- tube protecting the diodes made of impact-resistant Plastic (polycarbonate)
- handle and cap made of rubber
- rotating hook
- on/off switch in the cap
- protection class III
- ballast EVG
- battery:
 - NiMH 3,6V
 - charging time: 4h
- light source:
 - 27 SMD LED (3,24W)
 - lighting time 4h
- charger: 5V, 900mA
- spare parts available
- angle of lighting 110°
- IP54
- 0,30 kg
- Ø 45 mm
- lenght 290 mm
